MORITA SIGNO T100

**Technology meets Aesthetics.
The new Signo T100 represents
an uncompromised result of
the Morita DNA.**

The T100 combines the general design philosophy of Studio F. A. Porsche with the professional standards of Morita. It offers simple functionality and ease of maintenance, and its pure white body colour blends in with the space and brings a sense of calmness.

- Timeless design.
- Sophisticated manufacturing quality.
- Solidity, reliability and longevity.

FROM ONLY **\$25,900**

Pantograph Lift Mechanism

The cantilevered chair is coupled with a pantograph lift mechanism, the most widely used height adjustment mechanism in the world. Patients can stretch out their legs during treatment, which means they are less stressed and can cope with longer treatments.

Luna Vue TS for Optimal Visibility

The long-lasting energy-efficient single LED of the Luna Vue TS provides 30,000-lux of brightness and four levels of adjustment to ensure optimal visibility for the operator.

Headrest : Simple Design for Ease of Operability

The simple design of the headrest makes it easy to adjust and it is shaped in such a way as to prevent unwanted movement of the patient's head during treatment.

Easy-to-Use Foot Controller

The low angle of the foot switch minimises strain on the ankle from extended periods of operation and the chair's manual lever has an intuitive design for enhanced ease of operation.

Swing Model

The Swing Model is equipped with a Dual-Balanced Arm System, designed to reduce the weight of the instrument, minimising the physical strain during dental procedures. Additionally, its design promotes hygiene by allowing the tubing to remain elevated above the floor, preventing contamination.

Table Moves Effortlessly

The table with its integrated holders moves smoothly around a central axis.

PLANMECA COMPACT i CLASSIC

Simple and intuitive touch panel for adjusting all essential instrument, chair and infection control functions. User guide offered in 25 languages.

Reliable Infection Control - all the essential infection control functions are neatly organised in their own compartments for easy access.

The wide delivery arm's smooth movement supports an **ergonomic workflow**.

The plug-and-play instruments allow shared instrument use. **Balanced instrument arms** are extremely light and flexible.

For **ultimate durability and resistance**, the dental unit's main material is recyclable aluminium.

Optional extra - **automatic foldable leg rest** makes it easy for patients to enter and exit the chair.

Two high-quality upholstery types are available - **Comfort or Ultra Relax**. Both with a wide range of colour choices.

The **floating chair** and small cuspidor base maximise the legroom for both the dentist and the assistant. While the **lean and narrow backrest** design provides excellent access to the patient's mouth.

The **multi-functional foot control** can be positioned freely and used to carry out all the necessary instrument, chair and unit functions.

FROM ONLY **\$44,900**

PLANMECA COMPACT i5

Designed to last - made to perform

The Planmeca Compact i5 has been built around five central themes – design, wellbeing, cleanliness, intelligence and evolution.

A-DEC 500 PRO

Everything you've come to appreciate about the A-dec 500 dental chair, is now available with a new delivery. Enabled with A-dec+ and an updatable software platform, the A-dec 500 Pro delivery system supports your dental team with a new level of connection.

INTELLIGENT CONTROL

Intuitive, connected equipment is consistent and predictable.

CONNECTIVITY

A-dec+ paired with a software-based platform brings technological flexibility to your practice.

FLEXIBLE INTEGRATION

Integrating new clinical capabilities with the existing platform keeps equipment relevant.

OPTIMAL ACCESS

Get in close and comfortably position everything you need within reach.

SUPERIOR CARE

Comfort and stability add up to a superior patient experience.

DS 7 TOUCH PANEL

With an advanced responsive surface and 7inch durable glass touch screen, the Dynamic Screen 7 (DS7) offers a simplified interface that displays only the information you need for the procedure at hand, so you can focus on your patients.

A-DEC 300 PRO

The A-dec 300 Pro combines a full set of advanced features and reliable performance with an intuitive, easy-to-use system. Enhanced control pads provide an intuitive, responsive, and dynamic user interface. More functionality. More versatility. More forward-thinking design.

EVOLVED

Enhanced features make working more comfortable and intuitive.

CONNECTED

An updatable software platform helps futureproof your practice.

ACCESSIBLE

Close in to your patient, everything you need is within reach.

FLEXIBLE

Easily configure your system for the way you like to work.

CP5 CONTROL PANEL

The A-dec 300 Pro brings you a better operator experience with the Control Pad 5 (CP5) and Control Pad 5i (CP5i)—both with ultrasonic scaler integration. Enjoy seamless transitions during treatment with access to your chair, handpieces, clinical devices, cuspidor, and light functions all on one control pad. Navigate easily and accurately with just the touch of a finger on the smooth, impact-resistant glass surface.

Bringing you the broadest range of Treatment Units in the New Zealand market, our team have access to the most cutting-edge technology, with an option to suit every practice and budget.

We understand that every dental practice has unique needs, and our team are here to work closely with you to find the perfect chair that aligns with your space, style, and aspirations for patient experience.

With our extensive range and expert guidance, you can trust that you're investing in top-quality, reliable equipment that will support your practice for years to come.

Whether you're looking for comfort, durability, customisable features, the latest ergonomic innovations, or all of the above, our Henry Schein Equipment Specialists will work to meet your every need.

We're confident that our team stands out as some of the most knowledgeable in the industry. Combining decades of experience, continuous education, and a passion for innovation we're equipped to provide the most comprehensive guidance and solutions available.

Henry Schein Financial Services offer packages tailored to meet your specific needs, and payment terms that make new investment achievable. With one of our flexible terms, you'll find a finance solution that works for you.
